Wallis Week

MONDAY the 4th to Sunday the 10th is Wallis Week in Washington!

IT means you men are to emancipate the ladies from the cook stoves for at least one meal every day, by bringing the family to lunch or dine at WALLIS'.

THE "women folks" will value such a holiday far above praise of their baking ability and cookery skill. Relief from the terrors of meal preparation and the "after" tidying up; recess from the tedious, tiresome, hot routine is for them a change that will engender the kind of appreciation you prize.

SEND wife and daughter to lunch here, then bring them to dine where things to eat defy the heat. Special cold dishes, chilled drinks and iced desserts lower the temperature till you're revived, refreshed and rejuvenated. Remember WALLIS WEEK, Monday, the 4th, to Sunday, the 10th.

Miss Catherine Foley, of section 6, has returned from a two weeks' vacation in Atlantic City.

Lydia Brookbank, of the examining division, has been granted two weeks' leave.

Lawrence Schuett, of section 5, has the reputation at North Beach of being the champion fisherman. His catches last Sunday were the biggest trout seen at this resort this season. Two of them weighed close to six pounds apiece, and measured more than two feet in length. He experienced considerable difficulty in landing those whoppers.

E. F. Rau, of section 9, is out for a week.

Lewis H. Guy, watchman on the evening shift, has been granted a week's leave and expects to spend the time in St. Mary's County, Md.

Mrs. Blanche Taylor, of the examining division, has been granted two weeks' leave.

Miss Alva McGee, of section 3, is enjoying a week's vacation.

John Drukker and J. L. Ward, of the surface division, were absent Wednesday assisting the Elks in giving the kiddies a good time at Glen Echo. Mr. Drukker is some real candy maker, and carried along a bountiful supply of "kisses" for the children.

Jim Murray, machinist in section 1, sustained a badly burned hand Wednesday morning while pouring babbit metal. The injury was dressed in the medical office of the bureau, and Mr. Murray was able to continue with his work.

Patrick E. McEllegott, of the evening shift of the watch force, is reported ill.

The bureau band will repeat its concert at the Girls' Union lawn party which is being held again tonight at the home of Miss Gertrude McNally, 2300 Eighteenth street northeast, Brookland.

Henry Spegedy, superintendent of section 7, accompanied his son-in-law and daughter, Mr. and Mrs. Lombard and children on a motor trip to Indian Head last Sunday. Due to the extreme heat and considerable tire trouble was experienced, the climax being reached when it was discovered upon reaching this city on their return that one of the rear tires had actually run off the rim while en route. No trace of the lost tire could be found, and Mr. Lombard continued the journey home on the rim.

Edward White, of section 6, has decided to transfer his overtime work on the music for the bureau band from the band room to his home.

After Your Baby Is Born

Think Now About the Time to Come Afterwards.

When you hold in your arms your tiny new infant, be sure that you can feel that before its arrival you did all in your power to give it a happy pre-natal influence.

Scientists say that the thoughts and feelings of the expectant mother greatly affect the health and disposition of the future infant.

For over half a century thousands of women who have used the time honored remedy, Mother's Friend, say that they entirely escape nausea, nervousness and that peculiar distressing feeling so usual where nature is unaided. They thus preserved a wonderfully calm and happy disposition, which reflects so markedly upon the unborn child.

By the regular use of Mother's Friend the muscles are made and kept soft and elastic to readily yield to nature's demand for expansion without the usual wrenching strain. The nerves are not drawn upon, and as a consequence the expectant mother is calm and serene and the nights are not disturbed with nervous twitches, and the crisis is one of joy and happiness.

Write the Bradford Regulator Company, Dept. K, Lamar Building, Atlanta, Georgia, for their Motherhood Book, of value to every woman, and get a bottle of Mother's Friend from your druggist and begin treatment that will bring real results.

WHITE BRIDES DENIED NEGROES

Bill By Representative Caraway Prohibits Inter-marriage of Races.

Bills prohibiting the intermarriage of negroes and whites in the District and prohibiting the enlistment of colored men in the Military and Naval service were introduced in Congress yesterday by Representative Thaddeus H. Caraway.

Caraway stipulates in his bill "mixed" couples already residing in the District are to be permitted to remain here unless they move to some other territory, when they would be ever barred from returning. Parties violating the law he provides, would be guilty of a felony and subject to a fine of \$1,000 and not less than one year nor more than five years in prison. He further provides that persons who leave the District for the purpose of evading the law would be subject to the same penalty.

4 British Cabinet Men Sue Newspaper for Libel

London, July 31.—Walter Hume Long, first lord of the admiralty; Austen Chamberlain, chancellor of the exchequer; Sir Eric Geddes, minister without portfolio; and Sir Auckland Geddes, minister for reconstruction, have sued the Daily News for libel as the result of statements that they had made investments in Russian securities.

Charges that the British cabinet leaders had investments in Russia were made previously by James Winston, a leader of the coal miners. Sir Eric Geddes denied the charge. Long said he "believed he owned a few shares in a Russian company," but characterized as ridiculous the suggestion that this would influence a question of national policy. Chamberlain said he had invested in a mine before the war.
